"Mr. Speaker, very briefly, a no vote for two reasons. Number one, it infringes on property rights. And number two, it could be used, and I'm not saying that that's the motive, but it could be used for an excuse that we have too few houses, we have too many regulations, and we're not building enough for people. So, we're trying to kind of cut off the inventory. And for people who, particularly for Hawaii, who save for a lifetime, I'm not talking about the mainland, who can't use their property according to what this is.

"And my daughter, as some of you know, is a lawyer for estates and trusts. And when families feud, property stays empty for years until we find out who actually ends up getting it. So, I'm not sure this is a good piece of legislation. Thank you."

Representative Matayoshi rose to speak in opposition to both measures, stating:

"In opposition. I want to emphasize that coffee leaf rust is a very, very serious disease that does need to be dealt with. I want to make sure that every penny that the State is spending to fight this disease is spent in the right way. And this came through our committee and the Department of Agriculture testified that the science behind using organic fertilizers to fight this is not only cost prohibitive, but the science is not there, that it's just not effective.

"So, if we are going to be urging the Department of Agriculture to be spending a lot of money on a treatment that is not scientifically based, I just cannot stand in support of this measure. Thank you."

Representative Kapela rose to speak in support of both measures, stating:

"Thank you, Mr. Speaker. In strong support. The reason this resolution was introduced is because there are organic coffee farmers in my community and across our state that can't utilize some of the subsidies that the DOA is currently allowing. Organic farmers need an organic option in order to continue to have their organic certifications. So, I trust the farmers in my district, and I will continue to uplift their voices. Thank you."

Representative Tokioka rose to speak in support of both measures with reservations, stating:

"Thank you, Mr. Speaker. With reservations. As a member of the Agriculture Committee, we heard the same testimony and had the same concerns at that time. So, with reservations. Thank you."

Representative Perruso rose to speak in support of both measures, stating:

"In strong support. So, this testimony was provided before the Committee on Agriculture. And I did want to add to this conversation by saying that, oftentimes, the science is lagging around organic methods. So, while the scientific studies have not yet been completed, they are in the process of being completed and this work is being done. It just is not the kind of work actually that we have enough of. So, we don't have enough investigation into these questions. And I think that the farmers saying that the strength of the plants can be helped with organic fertilizer as a preventative measure in addressing coffee leaf rust, I think that that's important testimony."

Representative Onishi rose to speak in opposition to both measures, stating:

"Thank you, Mr. Speaker. In opposition and can I have the words of the speaker from Kaneohe added in the Journal as my own. And I'd like to also add that I have had discussions with, I guess, the foremost expert in regards to coffee in the State of Hawaii, who works for CTAHR. And she also believes that the best way to address the coffee leaf rust is through the treatment with fungicides versus the use of fertilizer. Fertilizer does not significantly improve the treatment of coffee leaf rust on coffee trees. So, in opposition. Thank you," and the Chair "so ordered." (By reference only.)

Representative Marten rose and asked that the Clerk record an aye vote with reservations for her on both measures, and the Chair "so ordered."

The motion was put to vote by the Chair and carried, and the reports of the Committee were adopted and H.R. ## ANNOUNCEMENTS

Representative Kapela: "Thank you, Mr. Speaker. Today is Transgender Day of Visibility. Today and every day we celebrate our transgender community. We have much to celebrate today but I also want to take a moment to recognize the continued harms facing our trans community, specifically transgender women of color. Of the 375 trans and gender diverse people who are reported to have been murdered last year, 96% of them were trans women or fems, 89% of those killed in the US were people of color, and 43% of those killed were migrants. We, as a body, must do more to end the epidemic of violence and discrimination towards trans women and girls of color who continue to be killed and assaulted at disproportionately higher rates than the rest of the queer community. I yield to the representative from Wahiawa and co-chair of the House Keiki Caucus."

Representative Perruso: "Mr. Speaker, according to the CDC, almost 2% of high school students identify as transgender. Applied to all youth, this means that there are at least 1.3 million or more trans youth nationwide. And of this number, 80% of transgender students said they've avoided bathrooms because they felt unsafe or uncomfortable, 64% of transgender students avoided gym class because they felt unsafe or uncomfortable, and 59% of transgender students had been required to use the bathroom that did not match the gender they live every day. We can do more to ensure transgender youth feel safe, seen, and heard in our educational institutions. Thank you, I yield to the representative from Waikiki and chair of the House Equality Caucus."

Representative Tam: "Thank you, Mr. Speaker. Trans people live in poverty at elevated rates, and for trans people of color, these rates are even higher. Around 29% of trans adults live in poverty and as well as 39% of black trans adults do, 48% of Latino trans adults; and 35% of Asian, Alaska Native, Native-American, and Native Hawaiian or Pacific Islander adults do as well. More than one quarter, 29% of trans adults, have been refused health care by a doctor or provider because of their gender identity. This sobering data reveals a health care system that has failed to meet their needs. As we move forward, I hope that we continue to prioritize policies that uplift the well-being of our transgender and non-binary community. Our trans community needs more than just visibility. They need action and attention. A happy Transgender Day of Visibility. Thank you, Mr. Speaker."

Representative Lowen: "Thanks, Mr. Speaker. I just wanted to remind everyone, the Environmental Caucus is hosting a 2:00 p.m. informational

session on Zoom to get an update from the Cesspool Conversion Working Group. And everyone is welcome to attend. I know it conflicts with some hearings, so you're welcome to have a staff person attend in your stead if you can't. And I think Zoom invites were sent out to everybody."

Representative Ward: "Mr. Speaker, lunch will be served immediately after session, with Bishop Silva giving a message in Room 437, your office and mine. Thank you."
